

Job Title	Job Description	Education Required	Salary (annual)	Work Environment	Job Growth	Personal Ranking	My Reasoning
Data Scientist	Use analytical tools/techniques to extract insights	Bachelor's	\$103,500.00	Office setting/remote	35%	2	I enjoy working in a team setting, and the work that I'd be doing would be complex and interesting. This job would also fit my interests and ideal salary.
Physician	Treat/diagnose injuries and illness; address healthcare maintenance	Doctoral	\$229,300.00	Clinical & nonclinical settings	3%	1	Being a physician is something I could see myself enjoying. I like staying busy and interacting with people. The job appeals to my interest in biology, and I'd enjoy performing skilled procedures.
Postsecondary Teacher	Instruct students in a variety of academic subjects beyond high school	Doctoral/Masters	\$80,840.00	Universities, professional schools	8%	4	I think I would enjoy being a professor because I've been a TA for much of my undergraduate career. Ideally, I would want to have a career beforehand.
Medical Scientist	Conduct research aimed at improving overall human health	Doctoral	\$99,930.00	Office setting/laboratory	10%	3	I have experience in bench work so this is a career that I've also highly considered. However, the days can get somewhat monotonous.
Dietitian/Nutritionist	Plan and conduct food service or nutritional programs to help people live healthy lives	Bachelor's	\$66,450.00	Hospitals, cafeterias, clinics, for the government	7%	6	I enjoy experimenting with healthy foods and eating. The salary is a bit low.
Interior Designer	Make indoor spaces functional, safe, and beautiful by determining space requirements	Bachelor's	\$61,590.00	Specialized design services	4%	9	Who isn't drawn to aesthetically pleasing interiors? I would ideally be paid more, but I think it would be a fun job.
Graphic Designer	Create visual concepts to communicate ideas that inspire, inform, and captivate consumers	Bachelor's	\$57,990.00	Service, publishing, and advertising industries	3%	8	Designing is appealing but I'm not sure if I would want a career in it.
Project Manager	Coordinate budget, schedule, staffing, and other details of a project	Bachelor's	\$95,370.00	Office setting/travel/remote	6%	5	I'm organized and confident in my leadership abilities.
Psychologist	Study cognitive, emotional, and social processes to study the relationships in the environment	Doctoral	\$85,330.00	Private practice/school setting/healthcare	6%	7	The idea of observing people and trying to figure out things about their life is fun.
	What did I find surprising?						
	The job salaries for each occupation are more or less what I expected them to be (salaries listed are the 2022 median annual income). The job growth for data scientists is surprising because I didn't expect it to be so high! The education required for the jobs I selected also align with what I think is needed to perform the job. The expected growth for some of the jobs seemed a bit low to me (like the physician/medical scientist jobs), but they are still growing steadily.
